

# Vicious Flytraps Roadmap

## Milestone #1

To begin and grow the community.

1

We want people to purchase our NFTs so they can become apart of the community. We would do things like have events and free NFT giveaways to really build the community.

## Milestone #2

Give back by doing Ethereum giveaways

2

If 25 to 50% of our NFTs get purchased, we will give back by randomly choosing lucky winners for an Ethereum giveaway.

## Milestone #3

Creating a game for all NFT owners

3

We would create a video game for a way to give back to all the people that buy our NFTs

## Ultimate Goal

To create a community with people all around the world and give back to others.
